Name:- ANAS A A KHAMAYSA

Student Number:- 2210213581

Department:- Computer Engineering 100% English

Ders Kodu:- CPE212

Course:- Internet Based Programming

```php
1  <?php
2
3  #Exircise 1
4
5  echo "Twinkle, Twinkle little star.<br>";
6
7  $word1="Twinkle";
8
9  $word2="star";
10
11 echo "$word1, $word1 little $word2.<br>";
12
13 $word1="Anas";
14
15 $word2="Engineer";
16
17 echo "$word1, $word1 little $word2.<br>";
```

Twinkle, Twinkle little star.
Twinkle, Twinkle little star.
Anas, Anas little Engineer.

```php
20 #Exircise 2
21
22 $x=10;
23
24 $y=7;
25
26 echo "$x + $y = ".($x+$y)."<br>";
27
28 echo "$x - $y = ".($x-$y)."<br>";
29
30 echo "$x * $y = ".($x*$y)."<br>";
31
32 echo "$x / $y = ".($x/$y)."<br>";
33
34 echo "$x % $y = ".($x%$y)."<br>";
```

10 + 7 = 17
10 - 7 = 3
10 * 7 = 70
10 / 7 = 1.4285714285714
10 % 7 = 3

```php
38 #Exircise 3
39
40 $value=8;
41 echo "Value is now $value.<br>";
42
43 $value+=2;
44 echo "Add 2. Value is now $value.<br>";
45
46 $value-=4;
47 echo "Subtract 4. Value is now $value.<br>";
48
49 $value*=5;
50 echo "Multiply by 5. Value is now $value.<br>";
51
52 $value/=3;
53 echo "Divide by 3. Value is now $value.<br>";
54
55 $value++;
56 echo "Increment value by one. Value is now $value.<br>";
57
58 $value--;
59 echo "Decrement value by one. Value is now $value.<br>";
```

Value is now 8.
Add 2. Value is now 10.
Subtract 4. Value is now 6.
Multiply by 5. Value is now 30.
Divide by 3. Value is now 10.
Increment value by one. Value is now 11.
Decrement value by one. Value is now 10.

```php
63  #Exircise 4
64
65  $name="Harry";
66
67  $age=28;
68
69  $nothing=NULL;
70
71  echo var_dump($name)."<br>";
72
73  echo "$name<br>";
74
75  echo var_dump($age)."<br>";
76
77  echo var_dump($nothing)."<br>";
```

string(5) "Harry"
Harry
int(28)
NULL

```php
81  #Exircise 5
82
83  $around="around";
84
85  echo 'What goes '.$around.', comes '.$around.'.<br>';
86
```

What goes around, comes around.

```php
89  #Exircise 6
90
91  $month=date('F',time());
92
93  if ($month=="August") {
94      echo "It's August, so it's really hot.<br>";
95  }
96  else {
97      echo "Not August, so at least not in the peak of the heat.<br>";
98  }
99
100
```

Not August, so at least not in the peak of the heat.
